

ATTENTION!

PLAGIARISM – MISREPRESENTATIONS – RENAMING

In response to the ongoing plagiarism of his medical discoveries, Dr. Hamer legally protected his work under the English name **German New Medicine®**. Yet, the plagiarism, misrepresentations, and renaming of German New Medicine® continue to this day.

We at LearningGNM categorically distance ourselves from the groups and individuals listed below.

... birds of a feather flock together ...

TOTAL BIOLOGY® is an organization founded by **Dr. Claude Sabbah**, a French medical doctor who had studied with Dr. Hamer in France in the mid-980s. In 1993, Sabbah was ready to take over the “New Medicine”. Mixed with NLP (Neuro-Linguistic Programming), Psychogenealogy (Anne Ancelin-Schutzenberger), and other theories, he called his “new science” (sic!!) “La Biologie Total” or “Total Biology”. To this day, followers of Sabbah, notably **Gérard Athias**, **Olivier Soulier** as well as off-shoots of Total Biology, including **Biological De-Programming or Biogenealogy** (**Christian Flèche**, **Patrick Obissier**), **Biodecoding®** (**Anne-Marie Boularand**, **Daniel Gambarte**, **Enrique Bouron**), **BioReprogramming®** (**Isabelle Benarous**), **Awareness Heals** (**Dr. Nelie Johnson**), **Quantum University** (**Dr. Paul Drouin**), **Bioneuroemoción** (**Enric Corbera**), and **Recall Healing®** (**Gilbert Renaud**) continue to corrupt Dr. Hamer’s authentic work.

META-Medicine® is plagiarizing Dr. Hamer’s discoveries on a large scale. In 2004, **Johannes Fisslinger** (Los Angeles, CA), together with **Dr. Anton Bader** (Germany), founder of the IMMA (Intl. Meta Medicine Association), callously took over and renamed Dr. Hamer’s medical research of over 20 years! **Richard Flook** acts as the international head trainer. Other representatives of this fraudulent organization are **Annie Gedye** (UK), **Dr. Stephanie Provencher** and **Dr. Kevin Chan** (USA), **Gita Jayakumar** (India), and **Christa Krahnert** (Australia). Richard Flook also operates under the trade name **Advanced Clearing Energetics®**. Other individuals such as **Tremayne Reiss**, **Robert Waghmare**, **Joanne Ross**, and **Dr. Kwesi Anan Odun** (UK) are misrepresenting Dr. Hamer’s original research under the name **META-Health®**.

NLP (Neuro-Linguistic Programming) is using Dr. Hamer’s findings in their Time Line Therapy™ Techniques and Time Empowerment™ Techniques without giving credit to Dr. Hamer or providing any reference to the original research material.

A DHS (Dirk Hamer Syndrome) has been renamed to a SEE (“Significant Emotional Experience”).

From Recent Trauma:

Current thinking is that it is not the childhood trauma that causes the cancer; it is a more recent trauma. It is also important to understand that it is the first event that allows the more recent SEE to create a lesion in the brain. One procedure in addition to Medical treatment is to release the SEE using what seem to be traditional psychological methods. But, doing this, even an imagined SEE is sufficient to bring back a relapse of the cancer symptoms. Our experience with Time Line Therapy™, however, is that the recurrence of the cancer can be prevented if the emotion on the first event is also released.

NLP and META-Medicine are now collaborating in the fraudulent take-over of German New Medicine, joined by **Peter Fraser (NES- Nutri-Energetics System®)**.

BIOLOGIKA® is the trade name for an organization founded by **Roberto Barnai** (Hungary). According to his own account, in 2004, after he had received a colon cancer diagnosis, Barnai came across Dr. Hamer's work over the internet. He admits that thanks to the "New Medicine", as it was then called, he is today a healthy man. After his recovery, he decided to "share this knowledge with others" but under a different name! While Dr. Hamer was held in prison in France (September 2004 - February 2006), Barnai walked away with Dr. Hamer's intellectual property. In 2006, he published the *Biologika Organ Atlas* (in Hungarian and German). Dr. Hamer: "He stole everything from my books." – On his website, Barnai writes pretentiously: "Owing to him [Barnai's] work, today, Biologika is a recognized and accredited subject of the official medical training at Universities throughout Hungary"). Considering that Dr. Hamer's medical discoveries have been consistently denied by the academic establishment (see University of Tuebingen in the Hamer Biography on this website), this is hard to believe. We, therefore, contacted several universities in Hungary and were informed by all of them that, contrary to Barnai's claim, "Biologika" is not offered in any of the accredited medical education programs. – Meanwhile, Barnai teamed up with Gilbert Renaud and Recall Healing. His representative in the Netherlands is **Enikő Papp**.

Academic deceit is evidently also a trait of **Marco Pfister**. Originally a fervent supporter of Dr. Hamer, Marco Pfister founded in 2003 ALBA (Associazione Leggi Biologiche Applicate) for the purpose of promoting GNM ("Nuova Medicina Germanica") in Italy. When Dr. Hamer learned that Pfister, who had no clinical experience with GNM, issued "diplomas" to medical professionals, claiming at the same time that German New Medicine cannot offer any therapy, the relationship fell apart. In 2013, Pfister transformed ALBA into "**Formazione Professionale 5LB**" (Professional Training 5 Biological Laws) and joined the new organization to the Université Européenne Jean Monnet (UEJM) in Brussels. At first, this sounds impressive. A closer look, however, reveals that the UEJM is not a "university" but a non-profit association (registered in Belgium) with no academic accreditation. As a member of UEJM, Pfister offers a four-year 5LB master program and at the end of the fifth year, a student receives the title "Professor of 5LB". Right after he had joined the UEJM, Pfister awarded himself with a "Doctorat en 5 Lois Biologiques", "certified" by the UEJM, that is, from his own organization.

Dr. Hamer: "Those groups and individuals who plagiarize and corrupt my discoveries say that GNM cannot offer any therapy. They make the patients, as well as the public at large, falsely believe that *their* "therapies", *their* "remedies", or *their* "devices" is an application of German New Medicine. This deception is serving self-interests and only distracts patients from finding help and healing through the truth of the Five Biological Laws. In over 90% of cases, the body heals itself."

Nicolas Barro belongs to a group in Germany (led by David Münnich) that renamed German New Medicine to "**5BN**" (Dr. Hamer: "I expressly forbid you to rename and corrupt the 'Germanische Neue Medizin'", Source: Open letter to Barro, 10/08/2007). Barro likes to present himself as a medical expert (Dr. Hamer: "I consider you and your accomplices as practitioners of GNM entirely **unqualified**"). In Germany, Barro gives "5BN" courses for health practitioners and for future "5BN Dozenten" (the German word for university lecturers). In Asia, he produces advertising literature for representatives of META-Medicine! In this 63-page booklet, he summarizes Dr. Hamer's findings by carefully omitting the name of the originator. Instead, so he writes nebolously, "the content is based on modern scientific discoveries and ancient methods"!

In 2016, **Dr. Melissa Sell**, a chiropractic doctor in the U.S., appeared out of nowhere to present herself as a German New Medicine authority. We came to know Dr. Sell through the GNM videos she posted on YouTube. As in her podcasts, in most of these presentations she "borrowed" copiously material, in parts verbatim, from this website without any reference to the source. After she was reminded of her copyright violation, she added an acknowledgment to some of the videos. However, the unauthorized copying from LearningGNM.com continues.

A serious matter of concern is Dr. Sell's lack of knowledge of the practical application of GNM. The so-called "Resolve Method" she promotes via the online "Ever Better Life University" founded by herself and her partner Steven Ravnstag, is in total contradiction to the GNM approach, supported by Dr. Hamer's clear statement: "When I discovered the First Biological Law, I thought that one has to resolve all conflicts as quickly as possible. Today, I know that this was a mistake." Anyone with a basic knowledge of GNM is aware that under certain circumstances, a conflict resolution can have life-threatening consequences. The catchy slogan "Conflict Resolution is a Lifestyle" Dr. Sell uses to draw people into her "Resolve Community" is, both **irresponsible and dangerous**. Through her videos, Facebook activities, and the postings on her websites, she is making the public falsely believe that she is a competent GNM therapist. The truth is that Dr. Melissa Sell has **never undergone any German New Medicine training!** Those who are looking for support, particularly with respect to the proper practical use of GNM, must therefore be on alert.

The USANewBiology Association she formed together with **Andi Locke Mears** is an embarrassing exposure of their poor understanding of the Five Biological Laws. Dr. Hamer did NOT discover a "new biology" but a new understanding of diseases based on the biology of the human organism that remains unchanged (see Third Biological Law). To associate this supposed "new biology" with the name German New Medicine is absurd.

Recently, Dr. Sell teamed-up with **Ingmar Marquardt**, an associate of "5BN". In 2018, Marquardt ("trained" by Nicolas Barro) created a cartoon about the Five Biological Laws, "historically called GNM", according to his advertisement. The vilification of the scientific value of GNM as well as the cartooned depiction of Dr. Hamer and of the death of his son Dirk is a disgrace. Yet, Dr. Sell did not hesitate to serve as a speaker for this "5BN" for dummies production.

Dr. David Holt, D.O. HMD (Integrative Medical Center, Nevada) falsely presents himself as "the leading U.S. physician in German New Medicine". In his **YouTube video "German New Medicine. Creating a Heart Attack - An Animal Study"**, Dr. Holt shows in an interview with **Dr. Mercola** how a "territorial loss conflict" was intentionally inflicted on a healthy dog. When, six weeks later, the experimenters returned the animal to his territory, the dog had a fatal heart attack (commented by Mercola and Holt with laughter). In his video, Dr. Holt is trying to verify Dr. Hamer's findings on the cause of heart attacks, giving the impression that German New Medicine advocates animal experimentation. The truth is that **Dr. Hamer strongly opposes the testing on animals**. Dr. Hamer: "today's animal testing is nothing but cruelty, ignoring that animals have a soul. Therefore, I allow myself the following prediction: one day, all animal experimentation will be exposed as a disgrace for our whole society and will be seen as a testimony to our unspeakable lack of knowledge and sensitivity."

EPFX/SCIO, developed by **William Nelson**, is a biofeedback device based on a random event generator that tests a large database of items, including "Hamer Herd facilities"! This alleged "Cancer Scan" matches the data of the disturbed brain area with other stored information. Because of the large number of parameters involved, the results are rather unpredictable. Once again, Dr. Hamer's name and research is being carelessly misused.

Since we keep receiving inquiries about the "**German New Medicine**" **Facebook page**, hosted by **John Theobald** (Canada), we must make it clear that LearningGNM.com is not associated with that page. Because of his obvious **misuse of the trademark German New Medicine®** through the presentation of subjects that are entirely unrelated or contradictory to Dr. Hamer's work as well as his postings of personal comments under a protected trade name, we firmly distance ourselves from John Theobald's Facebook activities.
